DETAILED ACTION

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Jonathan T. Velasco on 10-27-04.

Claims 32-35 have been canceled.

Allowable Subject Matter

2. Claims 1,4-12,20 and 25 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding claim 1 the most relevant prior art of record Kemmochi et al (20020183016) and Camp Jr. et al (6097974) discloses a system for providing a GPS enabled antenna, comprising: a dual band antenna; a diplexer coupled to the antenna; a switching module coupled to the diplexer; a first communications band diplexer coupled to the switching module; a second communications band diplexer coupled to the diplexer; a global positioning system (GPS) module coupled to the switching module; and an impedance matching circuit in the GPS module constructed to match impedance at approximately a GPS signal frequency. Claim 1 is allowable over the prior art of record since the cited references taken individually or in combination (in view of Applicant

Art Unit: 2686

Remarks/in the amendment) fails to teach wherein the switching module is adapted to selectively couple a signal feed from the antenna to one of the GPS module and the first communications band duplexer.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should clearly be labeled "Comments on Statement of Reasons for Allowance."
